

## Conestoga High School Skylight Replacement

### Back to the Basics

This new 10' x 140' skylight enhances the learning environment with daylighting and adds a warm, friendly atmosphere to the school's offices, commons and dining room. Our scope of work also included upgrading exterior windows and doors throughout the facility. The new thermally-efficient windows, doors and skylight will reduce energy costs, saving taxpayer dollars. Ayars & Ayars, Inc. is proud of our large number of repeat customers; Conestoga Public Schools is a prime example.

### Project Details

Location:  
Murray, Nebraska

Size:  
Skylight - 280 sq. ft.
