Hughes Brothers Briquettes

More Space Needed

Ayars & Ayars, Inc. was selected yet again to work with Hughes Brothers on a design/build project. This time constructing a new briquettes building located at their Seward, Nebraska campus. Our scope of work for this project included site work, concrete and metal erection. The new facility is primarily used for storage by Hughes Brothers. Ayars & Ayars, Inc. has built several buildings on the campus in Seward, Nebraska and we continually look forward to future work with the company.
