

# Meridian Public Schools - Gym Addition

## Tip Off!

Ayars & Ayars, Inc. is happy to announce that we have teamed up with Meridian Public Schools to design and build their new gym addition in Daykin, NE. This pre-engineered metal 8,200 sq. ft. gym addition will be a great resource for the growing K-12 school. By adding a second gym, Meridian Public Schools will gain much needed space to account for all of their current after-school programs. They will also have the space to host tournaments and activities, which wouldn't have been possible before. The new gym will be finished with a high quality maple wood floor that will benefit future Mustangs for generations to come.

## Project Details

➤ Location:  
Daykin, NE

➤ Size:  
8,200 sq. ft.

➤ Type of Construction:  
Pre-Engineered Metal
