

Nestlé Purina Bag Ingredient Warehouse Addition

Architectural Rendering

It's in the Bag

Ayars & Ayars, Inc. was pleased to be selected to erect this warehouse addition for Nestlé Purina. Our scopes of work included: structural modification of the existing facility, erecting a single story pre-cast concrete warehouse with pre-cast double tee roof units spanning 60 feet and utilizing structural steel and insulated panels to construct the new trash load-out structure. Two challenges we overcame to complete this project included poor soil conditions and keeping the facility functional throughout the construction process. We are proud of our large number of clients with whom we have completed multiple projects – Nestlé Purina is a prime example.

Project Details

➤ Location:
Clinton, Iowa

➤ Size:
7,700 sq. ft.

➤ Type of Construction:
Precast Concrete

➤ Project Completion:
2012

➤ Nestlé Purina PetCare Company:
