## Nestlé Purina Penthouse

### At the Top of the Ladder

Ayars & Ayars, Inc. and Nestlé Purina PetCare collaborated to expand Nestlé's penthouse that is currently being used for storage in their Oklahoma City Warehouse. We added on to the existing penthouse by converting the current one-story warehouse into a two-story factory. In order to achieve this, we removed a section of existing roofing, reinforce the existing structural steel, and added additional structural steel and insulated metal panels. We are proud of a large number of clients with whom we have completed multiple projects - Nestle Purina is a prime example.

### Project Details

➤ Location:  
Oklahoma City, Oklahoma

➤ Size:  
2,200 sq. ft.

➤ Type of Construction:  
Conventional Steel

➤ Project Completion:  
2017

➤ Your Pet, Our Passion®:  
Premium Pet Food by Purina.
