Polar Parts Co. - Remodel

Transforming Space

Ayars & Ayars, Inc.'s Special Projects Group was quick to respond when Polar Parts, in Savage, MN, called and was in need of a remodel at their office. The existing office area was positioned within their shop space, which made working conditions loud, dusty and often times unpleasant due to temperatures during the summer and winter months. Polar Parts chose us to complete this project because we priced out several options and let them make the best choice. We were able to reconfigure an existing training room into two office/desk areas. We transformed an unusable space into a much more office friendly environment.
