

Ponca Tribe of Nebraska Educational Trail

Mind and Body

Ayars & Ayars, Inc. is pleased to partner with Buffalo Spirit, LLC. on this educational trail for the Ponca Tribe of Nebraska. The project provides an opportunity for the Ponca people to come home, experience the elements and understand the interrelatedness of the Ponca culture with the Community Building property, the Niobrara River Valley, the Missouri River area and Grandmother Earth. The intent of this trail is to create a place where the Ponca can continue to learn and practice their cultural heritage in a traditional setting. The trail will provide the opportunity to be on the land where many Ponca historical associations can be made. Additionally, it will provide an opportunity for tribal members, descendants, the local and regional community and others to promote the Ponca culture.
