Cannon Equipment Plating Line Structural Repair

Rigidity

When Cannon Equipment needed help stabilizing failing structural supports, they chose Ayars & Ayars, Inc's Special Projects Group to effect repairs. Special Projects Group (SPG) was created to be a rapid response team, geared to provide full service construction solutions for smaller projects and maintenance issues. When it comes to keeping your facilities performing at their best, SPG, backed by the vast resources of Ayars & Ayars, Inc, has the knowledge, experience and equipment to be your partner in productivity.
