

Manufacturing

Manufacturing Plant - West Williston, North Dakota

Home Early

Highlighting Ayars & Ayars, Inc. project management skills and the efficiencies of our steel erection, concrete placement and masonry crews, this project was completed one month ahead of schedule. Our scopes of work included: site development, foundations, concrete placement, steel erection, masonry, interior finishes, paving and landscaping. Our process-driven construction techniques typically translate into projects being completed on time and on budget.
