

Pro-Pet, LLC. Expansion

Premium Partnership

Ayars & Ayars, Inc. was happy to announce that we were working with Pro-Pet LLC to add on to their existing facility. They chose Ayars & Ayars, Inc. because they were confident we would be able to stay on pace with the fast tracked schedule that was required for this project. This expansion added a production line, a new office, and a remodeled production locker area. Our scope of work included design, excavation, asphalt paving, concrete, masonry, steel erection, interior finishes, plumbing, and mechanical.
