

# Sharp Electronics

## From a Distance

Do you have a television in your home made by Sharp Electronics? It was assembled at this manufacturing facility. This project is another example of our partnership with The Frazier Company - an industry leader in warehouse rack storage systems. Frazier's system incorporates the building's structural components into the racking system. Once their work is in place, our scopes of work - sidewall and roof installation complete the project.

## Project Details

Location:  
Memphis, Tennessee
