Strobel Offices

Updated Look

Ayars & Ayars, Inc. was excited to be selected for our first project with Strobel Energy Group to renovate their LaVista, NE offices. This tenant finish included a bathroom renovation, a kitchen remodel, an overhead door replacement, and a new store front. The new aluminum and glass store front incorporated interior and exterior design elements that created a door and window system for a conference room, copy room, and offices. Our scope of work included demolition, metal and carpentry.
